Subject: Charles Dyer's Letter to the court and public
To: The State of Oklahoma, the Stephens Co. Court system, and my parents

From: Charles A. Dyer

I have taken this final opportunity while I am still alive to make a statement to the public. First, I am INNOCENT of all accusations. 2 years ago when I was first arrested, I had the utmost faith and confidence in the U.S. Judicial system, however I have since then learned that due to corruption and politics, that our system is severely flawed. There are far too many injustices to list in this message, but I will name some of them.

At every turn, my family and I have been threatened and bullied by both the state and federal governments. My family has been chased from the state, my parents have been broken financially, and I have been pushed to the limits multiple times by law enforcement and the judicial system in an attempt to cause me to take violent action against them. If I do, I know I will be the monster they depict me as.

The prosecution has been allowed to lie in court to a Jury, multiple times, and a judge refuses to ensure that they tell the truth. They have suppressed evidence that they know helps clear me of the charges and even lied to turn the evidence back against me. No investigation has been done whatsoever. It has been close to 2 years and still, my girlfriend, myself, nor my parents have been asked a single question. Even though they were allegedly present during every incident that I am accused of. My mother was threatened by agent poole of the FBI that if she did not cooperate, they would "make enough charges to put your son away for 40 years". He lied to me and told me if I refused to cooperate, he would arrest my girlfriend for being around weapons for 20 years because she was a felon, which was a lie! Agent Poole offered to make the charges disappear if I would "insert into the militia and complete a list of objectives over one or two years, depending on what my higher ups say". Then when I refused, he lied on his report which resulted in a federal indictment against me. He was later caught in that lie during the trial and I was found not guilty. NOTHING happened to him. Beyond this, every letter and phone call to my representatives and governor have been unanswered.

Our judicial system is nothing more than a system of liars and crooks working under the color of the law, where the rich go free and the poor are made to suffer injustice. Something **MUST** be done to expose it.
