**Subject:** FW: Who is the attorney?

Aaron,

When I first called you regarding how to proceed on the issue with the ELL investigation, I requested we don't have an attorney who had a history with the District and explained the reasons why. This needs to be sound legal advice without bias (or perceived bias) and therefore did not want Candyce Pardee, Dean Pickett, or Michelle Parker working this issue. You called me back and gave me the contact of Denise Bainton. I had been working with her but it now appears that Candyce Pardee has taken over the case because the President of the Board has been working with her unknown to me. So, who really is the attorney to assist us with the ELD implementation issues?
