a. It shall be the duty of the Animal Control Officer to apprehend any animal found running at large contrary to the provisions of this ordinance and impound such animals in the animal shelter designated by the City Council.

b. All animals impounded by the City shall be held until claimed by the owner or a minimum of four calendar days to include the day the animal was impounded, whichever comes first. Longer periods of custody may be used if in the opinion of the holding agency personnel the animal is likely to be claimed by its owner or a new owner will be found, provided that in either case there is a reasonable expectation that the fees, fines, or other charges provided for herein will be paid.

c. Any animal not claimed within the times provided above shall become the property of the agency serving as the City's animal shelter to dispose of humanely in accordance with their regulations and policies.

d. In lieu of impounding an animal found at large, the Animal Control Officer, upon determining the owner, may return the animal to the owner (if able to apprehend said animal) and issue a summons requiring the owner to appear in the court of jurisdiction for violation of this ordinance. Said summons may be issued without apprehending the animal if the owner of said animal can be identified.

e. It shall be the responsibility of the Animal Control Officer to make reasonable efforts to ascertain the owner of each impounded animal as soon as possible after taking it into custody. If the owner is identified, a reasonably expeditious effort shall be made to notify said owner of the impoundment of the animal and make the owner aware of the City's animal control laws, the period of impounding, charges to be made, and any fees owed the City.

Section 4.41 Reclamation of Impounded Animals.

a. Any person may make application to the City of Dawson for the return of any animal impounded therein and upon presentation of proof satisfactory to the City that such person is rightly entitled to the possession of such animal may recover it upon presentation of a \$25 impoundment fee plus fees to be fixed by agreement between the City Council and said agency, together with the reasonable expense of the animal's keep. The agency shall retain any fees collected by it under this section. The City shall retain the \$25 impoundment fee.

b. No animal shall be released to a potential new owner prior to the end of the impoundment period stipulated in Section 4.1, paragraph B.

c. If, after consultation with a licensed veterinarian, an animal is determined to have

a terminal illness, a potentially lethal wound or (in the case of an animal whose owner has not been identified) a communicable disease, such animal shall be disposed of by humane methods without regard to the specified holding period.

d. Enforcement personnel following the procedures proscribed in this ordinance shall not be held liable for the disposal of any animal.

Section 4.42 **Proof of Rabies Vaccine Required Prior to Release.**

No animal required to be vaccinated for rabies shall be released from impoundment prior to showing proof of a current rabies inoculation. If said animal has not had a current rabies vaccine or it cannot be shown that it has a current rabies vaccine, the animal shall be vaccinated prior to being released. The owner of the animal shall be responsible for the costs of the vaccination.

Section 4.43 **Physical Facilities.**

d. Facilities for the humane destruction of animals or fowl and the appropriate means for disposal of the remains shall be provided.

Section 4.44 **Care of Animals under Impoundment.**

Each animal shall be fed an adequate amount of food at least once per day and shall have fresh water available at all reasonable times.

Section 4.45 **Records.**

Records shall be kept at the pound and will, at a minimum, include a description of each animal, the date and time it was taken into custody, notations as to efforts to identify and notify the owner, rabies inoculation status, and any other pertinent medical information, to whom released, the charges assessed and by whom laid, and if not released, the date of disposal.

Section 4.46 **Impoundment Fees.**

The City Council may establish fees for the apprehension of any animals running at large, for the impoundment of animals at the county animal shelter, for the redemption of animals impounded under the provisions of this ordinance and for the disposal of animals not claimed or adopted. Such fees shall be sufficient for the City to recover the costs incurred in the administration of this ordinance. These fees, if any, shall be in addition to any fee charged to the animal owner by the veterinary serving as the City of Dawson animal shelter or any fine assessed by the Court for violations of this ordinance.

Sections 4.47 - 4.49 **Reserved.**

ARTICLE V. PROTECTION AGAINST RABIES

Section 4.50 Report of Animal Bite Required.

It shall be the duty of every person bitten by an animal to report immediately to the Terrell County Health Department giving his full name, age, and address; the circumstances surrounding the bite and the extent of the bite; the medical treatment given; and the name and address of the owner or custodian of the animal.

Section 4.51 Report of Animal Bite Required by Owner of Animal.

It shall be the duty of every person owning or having custody of an animal which has bitten a human being to report the same to the Terrell County Health Department and confine the animal in a secure enclosure for observation and examination by the Animal Control Officer and/or representatives of the Terrell County Health Department. No person having the custody or possession of such animal shall fail, refuse, or neglect to immediately notify the City of Dawson, or shall fail, refuse, or neglect to allow the Animal Control Official and/or a representative from the Terrell County Health Department to make an inspection or examination of such animal for the purpose of determining whether such animal has rabies.

Section 4.52 Bite Report Required by Those Providing Care.

It shall be the duty of every physician to report immediately to the Terrell County Health Department the full name, age, and address of any person under his care or observation who has been bitten by an animal in the City of Dawson. If no physician is in attendance and the person is a child, it shall be the duty of the parent or guardian to make such report immediately. If the person is an adult, such person shall make the report, or if incapacitated, it shall be made by whoever is caring for the person bitten.

Section 4.53 Reporting Animals Suspected of Having Rabies.

It shall be the duty of every person having knowledge of the existence of an animal apparently afflicted with rabies to report immediately to the Terrell County Health Department and the City of Dawson the existence and description of such animal; the place where seen; the owner's name, if know; and the symptoms suggesting rabies.

Section 4.54 Reporting of Suspected Rabies Cases by Owners.

Whenever the owner or person having custody or possession of any animal shall observe or learn that such animal has shown symptoms of rabies or has acted in a manner which would lead to a reasonable suspicion that it might have rabies, such owner or person shall immediately notify the City of Dawson and shall allow the Animal Control Officer and/or a representative of the Terrell

County Health Department to make an inspection or examination of such animal until it shall be established that such animal does or does not have rabies.

Section 4.55 **Disposition of Body of Suspected Rabies Cases.**

It shall be the duty of the owner or person having custody of any animal suspected of having rabies to surrender the carcass of the animal, or such portion of the carcass as may be requested, to the Animal Control Officer after the death of the animal.

Section 4.56 **Veterinarian to Quarantine Suspected Rabies Cases.**

All veterinarians treating an animal indicating symptoms of rabies shall hold such animal in quarantine until the disposition of said animal by the Animal Control Officer.

Section 4.57 **Report of Animal Biting Animal Required.**

It shall be the duty of every person having knowledge of any animal that bites another animal to report immediately to the Terrell County Health Department the existence and description of such animal; the owner's name, if known; the place where the biting incident occurred; a description of the bitten animal; and the name of its owner, if known.

Section 4.58 **Management of Animals That Scratch or Bite Humans.**

a. Dogs and Cats. A healthy dog or cat that bites or scratches a person or another animal should be confined and observed for 10 days. This required quarantine applies to dogs and cats only. Rabies vaccine should not be administered during the observation period. While in confinement, any signs of illness should be evaluated by a licensed veterinarian. The place of confinement shall be at the veterinarian clinic or agency designated by the City of Dawson as the animal shelter at the expense of the owner or person having custody or possession of the animal, the veterinarian chosen by the owner or person having the custody or possession of the animal at said owner's expense, or any other confinement location so designated and approved by the City of Dawson. If symptoms suggestive of rabies are observed, the animal should be humanely killed, and a specimen should be submitted to a qualified laboratory for testing. If the animal dies during the quarantine period, the specimen should be submitted immediately for rabies testing.

b. Stray Domestic Animals and Other Species. Any stray or unwanted animal that bites or scratches a person or domestic animal may be humanely euthanized and a specimen submitted for testing. Animals other than dogs or cats that bite or scratch a person and are suspected of being rabid should immediately be reported to the Terrell County Health Department. Management of animals other than dogs and cats is dependent on the animal species, the circumstances of the bite, and the epidemiology of rabies in the area and shall be at the discretion of the Animal Control Officer or the Terrell County Health Department or their authorized representative.

c. Livestock. Cattle, horses, mules, donkeys, goats, swine, and sheep are not likely to be carriers of rabies. Treatment will be weighed against the circumstances of exposure by the Animal Control Officer or the Terrell County Health Department or their authorized representative. If at the time of exposure the animal is clinically ill with signs suggestive of rabies, the Animal Control Officer or his authorized representative, or an authorized representative from the Terrell County Health Department will immediately and humanely kill the animal and a specimen will be submitted to a qualified laboratory for testing. The cost of testing will be the responsibility of the animal owner, if known.

a. Unvaccinated Dogs and Cats Exposed to Rabies. Unvaccinated or unwanted dogs and cats bitten or scratched by a known or potentially rabid animal should be humanely euthanized immediately. If the owner or the animal is unwilling to have this done (upon approval of the Department Head of Terrell County Health Department and the City of Dawson) the exposed animal must be placed in strict isolation for six months and vaccinated one month prior to being released. The responsibility for isolation of an exposed unvaccinated animal remains with the owner. The animal must be kept in a pen that has been built to the specifications of the State of Georgia Rabies Control Manual Appendix “C”, and approved by the Department Head of Terrell County Health Department and the City of Dawson. Additionally, a second fence 18-24 inches in distance from the inner pen must be erected around the perimeter to guarantee complete isolation of the quarantined animal from other animals and human contact. The total construction costs of this confinement area is the sole responsibility of the pet owner. Previously vaccinated dogs and cats whose rabies vaccination has lapsed from more than 30 days are considered unvaccinated and will be treated as such.

b. Vaccinated Dogs and Cats Exposed to Rabies. Dogs and cats that are currently vaccinated (vaccinated at least one month prior to exposure) should be re-vaccinated immediately, confined, and observed for 45 days. Confinement must be coordinated with and approved by Terrell County Health Department.

c. Livestock Exposed to Rabies. Vaccinated livestock (vaccinated by a licensed veterinarian with a USDA approved vaccine for that species at least 30 days prior to the attack) bitten by a rabid animal should be re-vaccinated immediately, confined, and observed for 45 days. Confinement must be coordinated with and approved by Terrell County Health Department.

d. Other Animals Exposed to Rabies. Unvaccinated animals bitten by a rabid animal should be euthanized immediately. If an animal has been vaccinated with a USDA approved vaccine for that species, the animal must be re-vaccinated immediately and placed in confinement for a

minimum of 90 days. Confinement must be coordinated with and approved by Terrell County Health Department.

Section 4.60 **Quarantine of Area of City.**

Whenever in the judgment of the City Council, after consultation with the Terrell County Health Department, the public health and safety so require, the Council shall declare and establish a quarantine zone or area consisting of the whole or any part of the City and maintain such quarantine therein until such time as they may deem it advisable to lift the same. During the existence of such quarantine, it shall be unlawful for any person to violate any of the rules and regulations proscribed by the City Council with reference to such quarantine.

Section 4.61 **Retention of Animals Suspected of Having Rabies.**

a. If the Animal Control Officer or pound keeper operating a pound for the City suspects that any animal impounded has rabies, he or she shall notify the Terrell County Animal Control Department. A qualified veterinarian shall examine such animal and if they believe such animal should be held for future observation, they shall so inform the Animal Control Officer.

b. If an animal is found to be afflicted with rabies, the Animal Control Officer or agency operating the pound for the City shall confine said animal as directed.

c. If an animal does not have rabies, the Animal Control Officer or agency operating a pound for the City shall release it or dispose of it in the manner proscribed in this ordinance.

No person shall bring any animal into the City in which rabies has been present within six months prior thereto.

Sections 4.63 - 4.69 **Reserved.**

Section 4.70 **Cruelty and Neglect to Animals Prohibited.**

No animal in the incorporated areas of the City shall be subject to cruelty and/or neglect as outlined in this section.

a. It shall be unlawful for any person to perform a cruel act on any animal; nor shall any person harm, maim, or kill any domestic animal, or attempt to do so, except that a person may:
